

PESACH 2026

APPROVED PRODUCTS

WARNING

There is no kashrut supervision of the 'Kosher for Passover' section in supermarkets and errors do sometimes occur. When purchasing products for Pesach from any non-supervised establishment, you are advised to check that all items bear a reliable kosher l'Pesach hechsher and do not contain kitniyot.

BABY MILK

Kosher l'Pesach baby formula is sold in kosher shops. In cases where this cannot be used, the listed products are approved. Unless specified otherwise, the listing refers to baby milk powders. Separate utensils should be used for their preparation as baby milks, including kosher l'Pesach baby formula, commonly contain kitniyot. It is recommended to buy new feeding bottles for Pesach as they normally come into contact with chametz.

Please note that since some baby milks now contain ingredients of chametz origin, a number of products approved in previous years are no longer suitable for Pesach.

We are still awaiting information from some companies. Please check www.passover.isitkosher.uk for the latest information.

FRESH PRECUT FRUIT & VEGETABLES

Precut fresh fruit and vegetables are not approved due to the fact that citric acid (potentially of chametz origin) is commonly used to prevent discolouration. There is no problem with precut fresh herbs or herbs grown in pots. Chopped herbs should be avoided as they cannot easily be checked for infestation.

FRESH & FROZEN FISH

It is preferable to buy fish from a kosher licensed fishmonger. If this is not possible, one may buy fresh or frozen fish from a non-supervised source, provided some skin (bearing easily detachable scales) is still attached. It is advisable to rinse the fish thoroughly before use. See www.isitkosher.uk for a list of kosher fish.

FROZEN FRUIT

Unsupervised frozen fruit should not be used because factories may use ascorbic or citric acid as a processing aid, which is often derived from chametz sources.

FROZEN VEGETABLES

Unsupervised frozen vegetables should not be used. This is because many factories use starch or citric acid during processing, and some process chametz products on the same lines.

GLUTEN FREE MATZO

Gluten free matzos are available from many kosher shops. Please note that only gluten free oat matzos are Hamotzi and suitable for the mitzva of matzo at the Seder. Matzos made from potato flour are NOT suitable for this purpose.
